

## A HISTORY OF PARADISE

In the beginning, Paradise was but a vision. It was to be a haven for the soul in search of fine food, exotic drink and festive ambiance. And so it came to pass that Paradise was created unique, eclectic, artistic and whimsical. Then, inspired by the real thing, Paradise was filled with relics of lands far away, of times long past and oceans quite deep. It was peopled with the finest chefs, the kindest servers and the most generous helpers. Lo, it was commanded that the freshest foods from around the world be brought to Paradise so that you might feast on these delights and delicacies. And so it was. Behold, on the dawning of the first day in Paradise, everyone saw that it was good, and the word spread. So now, from far and wide they come, they relax, they drink, dine and dream of warm beaches, golden sunsets and ocean breezes found only in Paradise...
